DADOquartz®

aarde collection

The **DADOquartz® Aarde Collection** is now available across our full range of bathtubs and basins, offering complete design freedom through a palette of full-bodied, earth-inspired colours.

Rooted in **individuality** and **natural character**, each piece is defined by **subtle organic variation** and a mineral wash-inspired finish that reflects the depth, texture, and warmth of living materials.

Through advanced manufacturing combined with meticulous hand-finishing, every bath and basin carries its own **unique expression**. **No two pieces are ever identical**, yet each remains colourfast, non-coated, and crafted to DADOquartz®'s uncompromising standards.

The collection brings together **tactile richness**, natural materiality, and **enduring performance**. It offers a refined balance between artisanal beauty and long-lasting durability.

With **colour throughout** the entire body of the product, surfaces can be restored **without compromising the integrity** or appearance.

This ensures longevity in both form and finish, making the Aarde Collection a considered choice for **design-led spaces**.
